Plastic Extrusion Profiles

 We're offline

Items: Plastic Extrusion Profiles

Technics: Plastic extruding

Material:PVC, ABS, PE, PP, PS, PMMA, Soft & Hard PVC,Transparent materials.

FLAMABILITY RATING: UL94 V0

Application: household appliances, LED lightings, automotive parts, craft gifts, daily necessities, construction machinery and other industries.

Color: all colors base on Pantone card & RAL card are avialable

China Plastic Extruding factory custom produce Plastic extrusion Profiles by Plastic Extruding process according to customers' drawing or samples

Descriptions

China Quality plastic extrusion profiles Custom Service

Ming Xiao Manufacturing Co Ltd is specialize in Plastic extrusion profiles, tubes, rods, LED lampshade, PC profile bar custom services, we can produce plastic extrusion products from materials of PC, PP, ABS, PVC, PMMA, AS /PE.

We're offline

plastic extruding

For ABS, PC, pet, thermal plastic elastic body TPV/TPR/TPE, polyvinyl chloride PVC, polystyrene PS, hips, polysulfone (PSF), organic glass PMMA and nylon, ASA, PP-SEBS coextrusion and other engineering plastics profiled extrusion products with a variety of production capacity and technical skills. Especially the Soft & Hard coextrusion technology, Copper & Plastic coextrusion technology has high attainments.

In the extruder, the material is heated and pressed to make it melt flow state, and then extruded continuously from the die.

The extrusion molding service (<https://www.plasticsmfg.com/capabilities/plastic-extrusion-service/>) is to heat the plastic material and make it in the state of viscous flow. Under the action of pressure, the plastic mold is used to form a continuum that is similar to the shape of the die. Then the cooling is made to form a glass state, and the plastic products with a certain geometry and size are obtained by cutting.

The Plastic Extrusion profiles widely use for auto parts, light rail train fittings, lamps and lanterns, refrigeration industry, household electrical appliances, stationery, warehousing and other enterprises to provide quality support services.

We are also provide machining services for our plastic extrusion profiles, such as cutting to small lengths,drilling holes,heat bending.And also custom plastic injection molded parts (<https://www.mxmparts.com/plastic-molded-parts/>).

If you need any plastic extrusion profiles.and happen to finding a plastic extruding services, Please send your drawings and samples to us, we shall work a price for you in 48 hours.
