

MODULE ONE XXS Pad Printing Machine

- Compact frame with safety enclosure and light curtain
- Pad printing machines from the series HERMETIC, SEALED INK CUP E or V-DUO
- For max. two-color print images
- Broad application spectrum
- Angle table with storage space
- Short delivery times

The youngest and smallest expansion of the MODULE ONE series

A safe and flexible standard manual workstation

The MODULE ONE XXS is based on the principle of the MODULE ONE series, but the machine concept is different: The MODULE ONE XXS has been designed for applications which need a simple loading and unloading in a manual workstation. The focus is on the safety of the operator.

**MODULE ONE XXS with pad printing machine
SEALED INK CUP 90 E**

The MODULE ONE XXS consists basically of a compact frame, a safety enclosure as well as the three standardized components: Light curtain, angle table and cross slide. The pad printing machine will be individually selected from the machine series HERMETIC, SEALED INK CUP E and V-DUO.

Light curtain

The MODULE ONE XXS can be used everywhere where the focus is on operator safety and production flexibility. The typical application areas are small components.

A continuously height adjustable angle table allows the printing of parts with different heights .

Angle table with storage shelf

Conclusion:

Thanks to the flexibility of the MODULE ONE XXS, future productions are secured and a machine use can be planned for many years.

MODULE ONE XXS

Stations		1
Number of colors max.		2
Machines		HERMETIC / SEALED INK CUP E / V-DUO
Components		Light curtain, angle table, cross slide
Ink/doctoring cup sizes	Ø mm	60, 90, 130
Cliché sizes max.	mm	140 x 70, 215 x 100, 150 x 300
Print image size max.	Ø mm	125
Speed max.		Depending on pad printing machine
