### ADVANTAGES AT A GLANCE

- Waste container stands completely firm without moving
- Thanks to its solid shell, the container generally remains undamaged after an impact
- Over 90% cost reduction for repairs
- Junction piece can be replaced in less than 3 minutes
- Only one call-out – reduced staff and vehicle costs
- Repair work does not have to be done on site
- Quick to disassemble if more space is needed at short notice
- Ground shells can be locked to prevent risk of tripping

### Waste containers with 3p-Technologie – Practical but stylish

This type of waste container combines functionality with design. Its classic cylindrical shape fits into any cityscape.

Its strong outer shell is extremely damage-resistant and also provides enough space for signs or billboards. When combined with the optional 3p-Flex junction piece, the waste container is even more resistant to everyday (traffic) inconveniences.

- ▶ **ABES Waste-Containers equipped with 3p-Technologie are always removable. They can easily be carried to different locations (e.g. the building yard) for cleaning or maintenance work.**
