

PAM

Grain Cleaning Innovation

**Self-propelled grain
cleaning machines
OBC-25C**

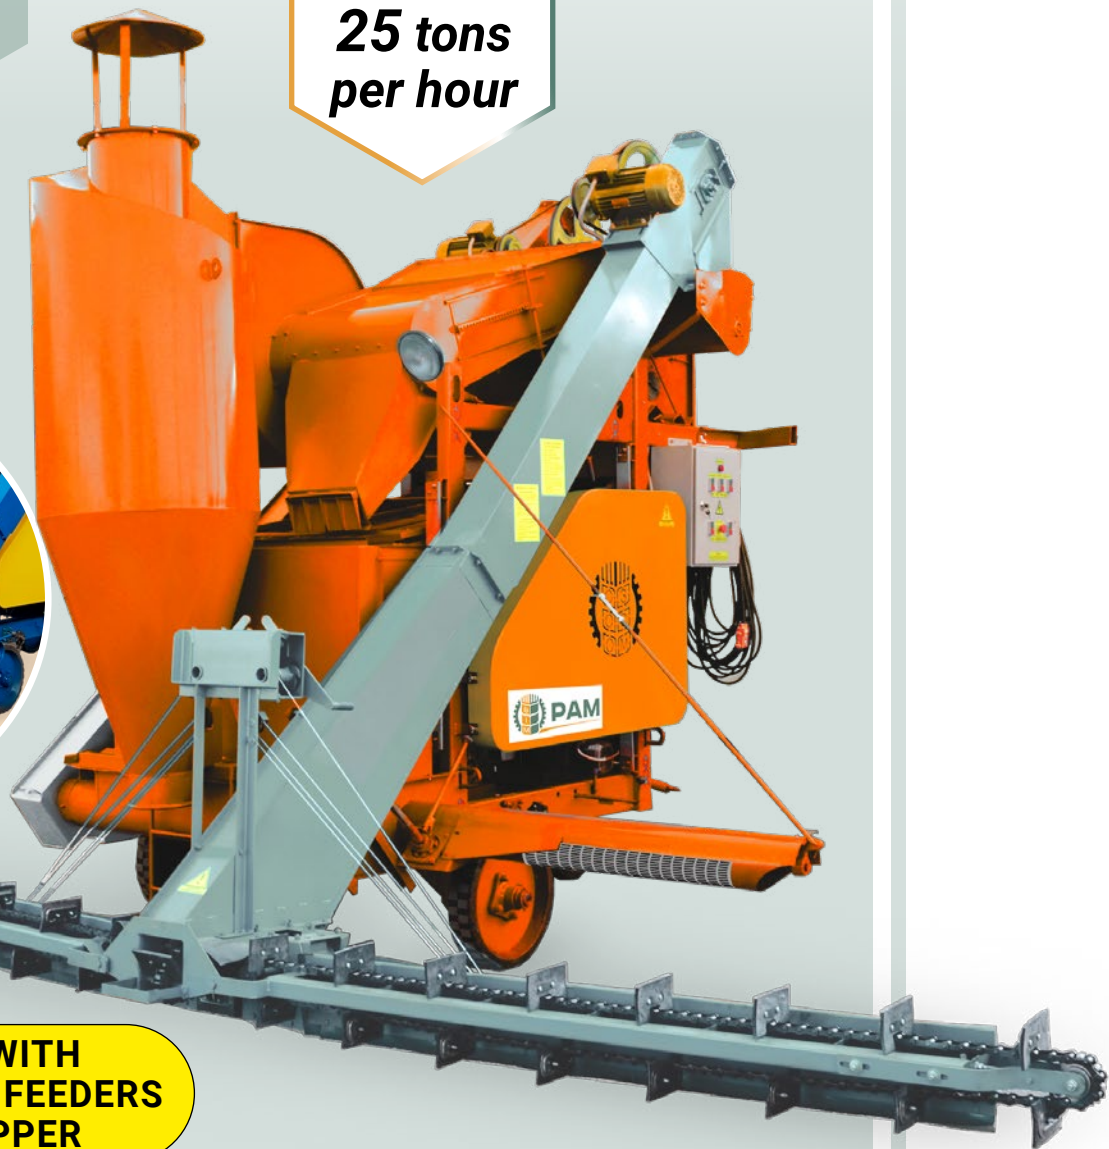

**High-quality
cleaning of
any grain,
seeds and
beans**

**Up to
25 tons
per hour**

**LOADS ITSELF WITH
GRAIN BY SCRAPER FEEDERS
OR FROM A HOPPER**

Main advantages of using the OBC-25C

- **Versatility** - used for cleaning any kind of grain and seeds
- **High quality cleaning** and minimal damage to the grain
- **Move independently** and load themselves with grain without help of other machines or people
- **Can independently load transport** up to 3 meters high
- **Easy and convenient** operation and maintenance

Model	OBC-25CB	OBC-25C	OBC-25CML
Performance, tons per hour	up to 25		
Type of grain loading	hopper	scraper feeders	
Mass, kg	1790	1935	1955
Capacity, kWt	8,95		
Electricity consumption, kWh per t	0,36		
Lighting , remote control	option	option	yes
Longer elevator, bumper	option	option	yes
Dimensions in effective position:			
Height, mm	3300	3300	3510
Length, mm	5110	4800	5100
Width, mm	3075	5300	5300
Additional options	auger	hopper and auger
