

Data sheet

VS12 A

BIZERBA

Semi-automatic premium vertical slicer.
Ensures maximum hygiene and optimal presentation due to touchless depositing.

More information
High performance with a wide range of solutions and options.

Product description

The vertical carriage of the VS12 A ensures ergonomic, upright operation while providing an optimal view of the slicing result.

This machine consists of a powerful blade drive. Thanks to an automatic depositing arm slices are laid out without manual handling and numerous depositing patterns allow optimal product presentation.

The membrane keyboard with intuitive operating symbols allows easy operation.

The entire depositing system can be easily and quickly disassembled for thorough and efficient cleaning.

VS12 A

Highlights

- Perfect hygienic design: Disassembly without tools and dishwasher-safe Ceraclean® attachment parts as well as a large distance between blade and motor tower for easy manual cleaning
- Fine adjustment of slice thickness between 0 - 3 mm
- Powerful Bizerba motor, optionally with intelligent motor control Emotion® for saving energy while the motor is even more powerful, low-noise operation and virtually no heating up of the depositing area
- Optional Ceraclean® surface refinement for easy cleaning
- Perfect, hygienic portions and stacks also directly onto paper or foil
- Minimized hazard potential since entire slicing area is covered during blade sharpening

Chain frame

Depositing area

Options

- Ceraclean®: Surface refinement
- Emotion®: Motor control for load-dependant energy consumption
- Blade options: Ceraclean® blade, cheese blade, bread blade
- Remnant holder variants: smooth, checkered, with spikes
- Round platter
