

The Trusted Metal Conveyor Belt Manufacturer

Longer belt life

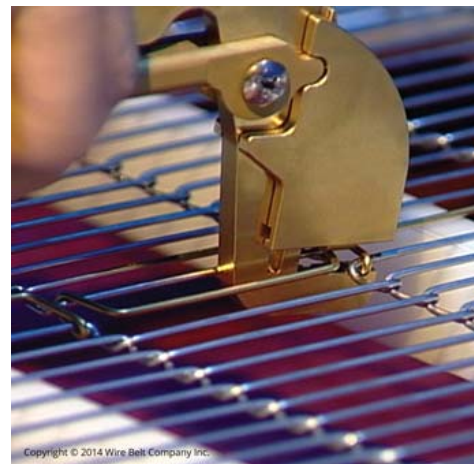

EZ-Splice[®] joining strand

stronger belt joints

Using EZ-Splice[®] belt joining strand during installation will dramatically extend your belt life! Belt installations that are rushed and improperly made are often the cause of belt breakage and downtime. EZ-Splice[®] is a pre-formed, pre-bent joining strand that requires no bending or weaving during installation. This helps to prevent any weak spots in the belt joint.

Advantages

- Stronger belt joints for longer belt life
- Save time and money by reducing repair time
- Replaces the traditional full strand joining method of lacing and weaving
- Join your belt up to 20 times faster than traditional full strand joining
- Works with our C-CureEdge[®] Flat-Flex[®] belts
