An important part of the group of companies “Innovanta” is its own modern and innovational facility specialized in the production of nutrition. The facility strictly adheres to the HACCP and ISO 22000 regulations.

The group of companies “Innovanta” owns more than 1000 sq.m. manufacturing facilities that are well-equipped, which allows manufacturing various dry mixes using microencapsulating technology.

The company has full control of the manufacturing process from the concept development by its own R&D department to the shipment of the batch.

# FUNCTIONAL DRINKS FOR BEAUTY AND HEALTH SENTAStIQ

**World market of functional drinks** actively develops and will grow by 7.9% and will reach \$276 billion by the year 2025. At the same time, coffee pods market will grow by 7.07% by the year 2026. Despite that the choice of functional drinks in coffee-machine compatible pods is very limited today and many of them are surprisingly not beneficial for our health.

**The target audience** are health-oriented people and care about their family and friends trying to adhere to healthy eating and active lifestyle.

## Почему SENTAStIQ?

- ☕ Large selection of flavors: everyone will find the taste to love
- ☕ Functional composition developed by physicians and scientists
- ☕ Attractive price of the product
- ☕ Functional drinks will help consumers to stay healthy for years

# SENTASTIQ

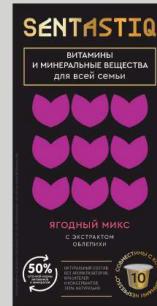

## Functional drink SENTASTIQ with maral antlers for men's health

Maral antlers strengthen immunity, increase mental and physical performance, and also stimulate the production of sex hormones

## Functional drink SENTASTIQ with L-theanine to reduce stress

L-theanine activates the production of dopamine, which stimulates pleasure, as well as the "happiness hormone" - serotonin

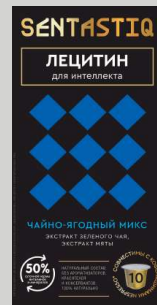

## Functional drink SENTASTIQ with vitamins and minerals for the whole family

Delicious drink to maintain optimal health with vitamins, minerals

## Functional drink SENTASTIQ with resveratrol to stay young

An effective antioxidant resveratrol can prolong life, as it prevents damage to blood vessels, lowers blood cholesterol levels and prevents blood clots.

## Functional drink SENTASTIQ with lecithin to support brain

Lecithin protects body cells from aggressive environment and repairs damaged nerve cells

## MICROENCAPSULATION TECHNOLOGY:

Allows to "seal" useful components of the cocktail and prevents their destruction until the moment of dilution

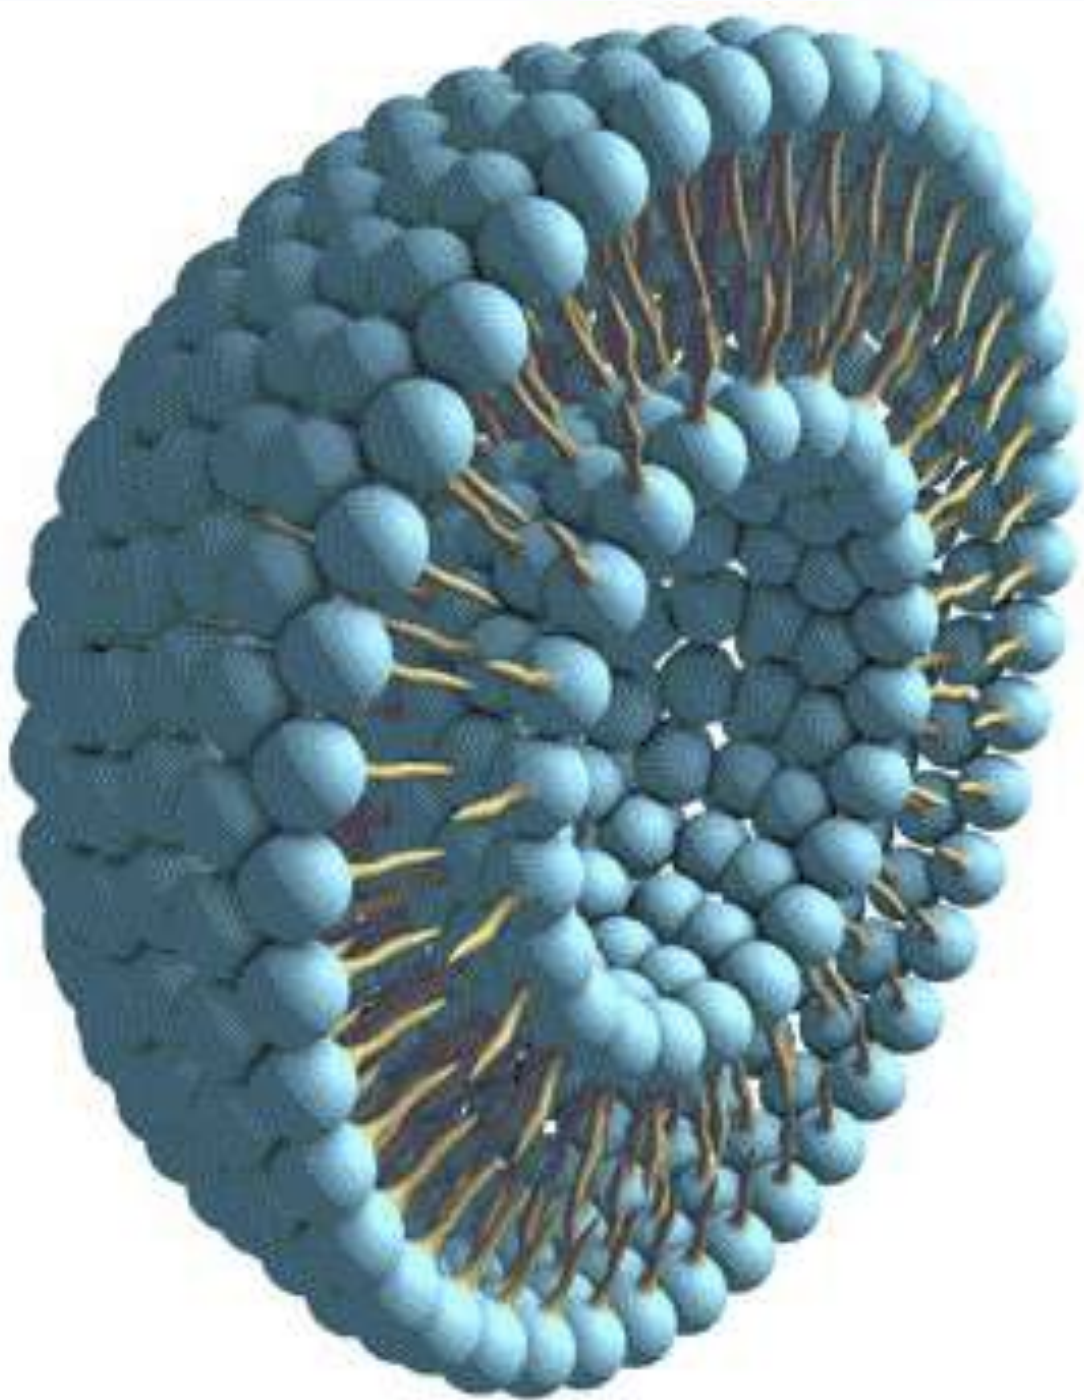

## Functional drink SENTASTIQ with hyaluronic acid to maintain beauty

Hyaluronic acid helps to keep the skin hydrated and stimulates regeneration processes. In addition, it promotes wound healing, relieves inflammation and regulates skin regeneration

## Functional drink SENTASTIQ with colostrum to support Immunity

Colostrum strengthens the immune system and improves resistance to infections

Our products are manufactured using the unique LIPOSFERA microencapsulation technology, which allows us to obtain millions of microscopic vials that are containers with the active substance inside.

The membrane of such a liposome is identical to the structure of the cell, so it easily penetrates the cell barrier, delivering the active active substances unchanged.

Thanks to the use of this technology in the production of food, the active substances are not destroyed under the influence of the aggressive environment of the stomach but are completely absorbed.

## FUNCTIONAL DRINKS

# SENTASTIQ

### RECOMMENDED:

- To the healthy children and grown-ups
- To children and adults with an increased need for vitamins and minerals
- Active adults who need extra energy
- Adults, who experience daily stress
- For those looking for a healthy alternative to coffee
- Children and adults living in ecologically unstable regions

***Contraindications:***

*Allergy to the components of the drink*
