## BUFFET SYSTEM

Our buffet system sets ... and more

# Set the scene for your buffet

The practical system  
for your own flexible  
buffet configuration

You know how it is: For breakfast, functions or dinners, we all love buffets which present food in a clear, well-organized and appetising way.

All the better if you have buffet elements that can be set up and arranged quickly, used immediately and combined flexibly. The buffet system from Bartscher offers all of that – and much more:

- Simple handling
- Needs-based modules for individual use
- More efficient, simple set-up
- Quick to change, can be flexibly expanded
- A multitude of combination possibilities
- Saves time in buffet set-up

Modular.  
Elementary.  
Wonderful.

# BUFFET SYSTEM

STANDARD SETS for basic configuration

# Versatile configuration

## Attractive look

## Clear design

The Bartscher buffet system in a simple, food-safe wooden design with connecting system puts every buffet centre stage and, together with the various sets, forms a harmonious and clear overall look. The sets' compact size of 580 x 405 mm also combine effective economy of space with robust functionality - excellently tailored to suit the needs according to your wishes and number of guests.
