

## PORTABLE TOILET «ECOMARKA EUROSTANDARD»

### ADVANTAGES OF «ECOMARKA EUROSTANDARD» PORTABLE TOILET

Double solid front panel with door retention components along the whole height of the door without steel hinges provides an extra strength to «Ecomarka Eurostandard» portable toilet cabin.

Translucent triangular roof provides more space inside the cabin (in comparison with the previous models with a round roof).

The shape of the storage tank guarantees high strength and wear resistance.

Side panels have new print, which increases the stiffness of the whole structure and gives extra space for placement of any advertising materials.

Wood tray is reinforced with an OSB-panel to extend the service life of the product.

Ergonomic handle is nice-looking and easy-to-use. Two color options of the model are available: blue and green.

### BASIC CONFIGURATION OF THE PORTABLE TOILET CABIN «ECOMARKA EUROSTANDARD»
