

# ASSIMILA

BIOSTIMULANT WITH ANTISTRESS EFFECT

SPECIFIC ACTION PRODUCT

Hydrolyzed protein of alfalfa

## COMPOSITION (%w/w)

Organic nitrogen (N)	4.5%
Organic biological carbon (C)	15%
Total amino acids	28%
Free amino acids	3.5%

ASSIMILA contains quick-absorbing amino acids and it is obtained through an enzymatic hydrolysis process. This product stimulates the metabolic processes of all plants. Its application is recommended in unfavorable climatic conditions such as extremely hot and cold weather and, above all, after the occurrence of frosts and other stresses such as roots asphyxia and high salinity levels.

ASSIMILA is recommended for all arboreal and herbaceous crops and can be used regularly during sprouting, growth, pre and post-floral attachment and at all stages of fruit development. Moreover, thanks to its carrying properties, it is recommended to use it with herbicides.

Allowed in  
**BIOLOGICAL  
AGRICULTURE**

DOSAGE AND METHODS OF USE	CROPS	APPLICATION	DOSE
<b>FOLIAR</b>	Fruit Horticultural Floricultural Industrial	2-4 Throughout the cycle	150-200 ml/100 L of water
<b>FERTIGATION</b>	Fruit Horticultural Floricultural Industrial	2-4 Throughout the cycle	12-18 L/ha

Warnings: Shake the product well before use. For any mixtures with other products, make preliminary tests. Observe the dosages shown. The product is not combustible and is stable at ordinary temperatures and pressures. Store the product in adequately ventilated rooms at temperatures between + 5 °C and + 35 °C.

## FORMULATION

Soluble liquid
