

Product description

Applying Reinasan 24/7 active Protection adds additional functionalities to the floor type. For example, with the available pH neutral maintenance agent, stains are easily removed, it maintains its anti-slip value by eliminating residue build-up from cleaning agents. Also, joints and seals foul less quickly, service life is extended and thus cost control on intensive cleaning and major maintenance.

Addition

The protection and care products have no negative effects on existing qualities of PVC, rubber, natural stone, floor carpet, gravel, cast and coated floors. Smart and effective maintenance using environmentally friendly products. It permanently dismantles unwanted microbiology and prevents unpleasant odours. It is suitable for new and or existing floors and there is no obstacle when reapplying the treatment after the 5-year guarantee period.

Partner information

Reinasan works exclusively with partners. After a company successfully completes the training course, the trained employees are certified. This enables the partner to carry out assignments 100% independently. In this way, they can distinguish themselves by offering extra service and contribute to making our planet more sustainable and circular. Also, the system offers the partner the opportunity to generate more turnover.
