

— Deflects buildup —

Clean-Sweep™ Sprockets

and lengthens life

Wire Belt's innovative line of Clean-Sweep™ sprockets are specifically designed to deflect the amount of product buildup accumulated on your conveyor's drive. This means that there is less of a chance for product loss & carryout, belt skipping due to product buildup, and belt breakage due to incorrect contact with the sprocket teeth. Clean-Sweep™ sprocket's tooth chamfer is machined to reduce drive friction and can lengthen belt life.

Advantages

- Deflects product buildup at the drive
- Engineered specifically for use with Wire Belt's Versa-Link™ and Flat-Flex® conveyor belts
- Sprocket tooth chamfer reduces drive friction - lessening belt wear
- Easy-to-clean in place design
- Eliminates belt skipping due to product buildup
- Available in stainless steel or PEEK materials
