NUTRIEL R are water-soluble fertilizers for fertigation with high purity and solubility and developed to have quick absorption. In addition to nitrogen, phosphorus and potassium, NUTRIEL R contains EDTA chelated micro elements which provide the crops with the required nutritional elements.

DOSAGE AND METHODS OF USE

CROPS

APPLICATION

DOSE

FERTIGATION

Fruit
Horticultural
Floricultural
Industrial

2-4 Throughout the cycle

50-70 kg/ha

Warnings: For any mixtures with other products, make preliminary tests. Observe the dosages shown. Store the product in properly ventilated areas.

FORMULATION

Soluble microcrystals

PACKAGE
