

PAM

Innovation in cleaning & loading grain

**Up to
80 tons
per hour**

Self-propelled machines for fast cleaning and loading of any grain into any transport

**Only
0.25 kWh
per ton**

**Grain moisture
reduction**

The harvester loads the trailer

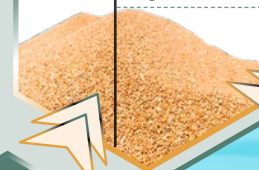

Grain after harvest

OBC-70M4L

Cleaned grain

up to 9 m high

Main advantages of using

- **Capacity** up to 80 tons of grains per hour
- **Versatility** - the machine cleans, loads, moves and dries all kinds of grain
- **Used for loading** any kind of transport, handling and stacking any kind of grain into piles up to 9 m high
- **Consume 0.25 kWh** of electricity for cleaning, drying, loading and storage of ton of grain
- **Move independently** and load itself with grain without help of other machines or people
- **Change the direction and height** of the grain flight in less than 3 seconds
- **Easy, safe and convenient** operation and maintenance

Model	OBC-70M3	OBC-70M3L	OBC-70M4	OBC-70M4L
Performance, tons per hour	up to 80			
Grain loading height, m	up to 9 (adjustable)			
Grain flight range, m	up to 23			
Design features	SF + T	SF + T + EL	SF + T + AS	SF + T + AS + EL
Mass, kg	2845	2957	2907	3019
Capacity, kWt	18,15	19,15	18,52	19,52
Electricity consumption, kWh per t	0,227	0,24	0,231	0,25
Dimensions in effective position:				
Height, m (adjustable)	3,61-4,7			
Length, m (adjustable)	6,3-9,5	7-9,5	6,3 - 9,5	7-9,5
Width, m (adjustable)	3,7-5,9			
Additional options	AC+ BH+ FC + additional trimmer pipe			

Abbreviations: AS - auger for small impurities • AC - clean grain auger • BH - big hopper
FC - frequency converter • SF - scraper feeders • T - trimmer • EL - extended grain loader
